

Super!!! CD-ROM

The *Super!!!* CD-ROM is an initiative of the Professional Support and Curriculum Directorate of the NSW Department of Education and Training. It has been jointly developed by the Professional Support and Curriculum Directorate and Curriculum Corporation. *Super!!!* is an interactive multimedia resource supporting the K-10 German syllabus. It runs on both Macintosh and Windows platforms.

NSW government primary schools offering courses in German may order one free copy of the *Super!!!* CD-ROM by returning the form below. NSW government secondary schools can purchase *Super!!!* by returning the form to the German Consultants with a cheque for \$20.00. Non-government schools can purchase individual CDs from the Curriculum Corporation (fax 03 9639 1616) or booksellers. Schools wishing to purchase a network licence should contact Curriculum Corporation.

Super!!! combines audio, text, still and animated graphics and video footage in interactive self-paced learning activities. Each topic is divided into three sequential levels of difficulty and has both learning and test activities. Teachers can track and evaluate student progress. *Super!!!* emphasises listening and responding to German in a fun and engaging way. It is based on sound language learning methodology and supports students' literacy development.

The Department of Education and Training's ABN is 40-300-173-822.

Fax to: German Language Consultants, 02 9886 7160.

Free to NSW government primary schools.

\$20 (including \$1.82 GST) to NSW government secondary schools offering a German program
