

Geni@l CD-ROM

Designed to accompany the Geni@l Kursbuch A1 and Arbeitsbuch A1, this CD-ROM could also **supplement any junior course** book. Best for the Stages 4 and 5 age groups, the CD ROM includes great photographs and engaging video clips which students will enjoy. Activities include:

- Listening comprehensions (drag and drop, true/false, summary writing)
- Games (dominoes, memory, crosswords)
- Dictations
- Teacher-corrected exercises to print off
- Grammar activities (including personal pronouns, articles, verb endings, separable verbs, word order, imperatives, prepositions)
- Pronunciation practice

Students may find the German instructions a little challenging at first, but overall the variety and broad level of difficulty of the activities makes this a fantastic resource for teachers of German in Years 7 to 10. It could be used for whole class activities (with a data projector) or as reward/motivator for students who like to work alone.

Definitely worth a look!

CD ROM \$89.99 (as at 10/03)

Geni@l A1 Course

As a German publication, Geni@l has a much **stronger grammar and pronunciation focus** than course books published in Australia or England. Early chapters look at verb endings, articles and plurals. Topics covered match well with NSW syllabus requirements (for example: *Vorstellungen, Länder, Schule, Tiere, Freizeit*) and the full-colour format is bright, clear and appealing. The course aims to teach learning strategies and is rich in reading activities of many genres, including emails, posters, prose, descriptive texts, brochures. This course would be ideal for a capable Year 7 or 8 class, or could also be used with any elective class. The accompanying workbook contains a good variety of activities, including interesting and well-presented short reading passages. Answers are provided in the back of the book for the "Das kann ich schon" evaluation sections of the units. The accompanying CD include poems, songs as well as listening activities. The course also comes with its own *Testheft* and accompanying CD-ROM (see review above). Contact Intext if you would like a brochure.

Something different!

Available from Intext (published by Langenscheidt)
