

Tamburin 1

During 2002, “Tamburin 1” was trialled for a 12 month period in several South Australian primary schools. It was evaluated very highly by the participating schools, with all teachers finding that their students’ German improved enormously. The students really liked using the course, and teachers found it easy to program.

Tamburin 1 can be used for between 1 and 3 years, depending on the number of contact hours per week. It is best used from Year 3, although can easily be used with younger students if the writing sections are omitted.

Children are curious, like to be active and learn with all their senses. They are prepared to speak and perform in other languages and enjoy movement, games, music, rhymes and rhythms. “Tamburin 1” offers all these possibilities, creating a fun and relaxed atmosphere in the classroom.

“Tamburin 2” and “Tamburin 3” are also available.

A great resource for any primary teacher of German!
