

## Wechselspiel Junior

The same format as the ever popular *Wechselspiel*, but aimed at slightly younger students. The book includes some amazing illustrations, explanations for each activity, as well as the accompanying photocopiable pairwork activity masters.

Activities include:

- join-the-dots activities, in which one student reads out the correct order of the numbers for their partner to correctly complete the picture
- learning about countries and greetings from across the world
- battleship games to practise the alphabet and numbers
- who forgot to bring what (classroom vocabulary)
- dressing up for *Karneval*
- talking about your school subjects
- describing pirates and their crews
- learning which countries have won the soccer world cup since 1930

The book has a magical theme, with a cast of characters including kings, queens, court jesters, witches, owls and vampires. It provides a wealth of wonderful support material for any teaching course and is suitable for Years 7 – 10.

Available from Intext (published by Langenscheidt)
