

# Head Teacher Mathematics Links

NSW Department of Education and Training

Curriculum K-12 Directorate

Volume 1, Number 1, 1 March 2006

## Email Alert

### **Welcome to Mathematics Links 1 March 2006**

HT Mathematics Links is an electronic update for mathematics faculty leaders informing on the latest additions to the *Curriculum Support* website, professional development opportunities and links to relevant resources.

#### **Curriculum Support updates**

- Currently, the Curriculum Support website is undergoing rejuvenation and is being migrated to a new server. It will have a new look and should be easier to navigate. When the new site goes live there will be an automatic redirect from the old URL.
- The current site address is <http://www.curriculumsupport.nsw.edu.au/index.cfm>
- Navigate to secondary mathematics by selecting secondary – mathematics – teaching ideas

#### **Professional development**

- 7-10 Stage 5 assessment workshops have been offered across the state late term 4, 2005 facilitated by regional mathematics consultants. There are more Stage 5 assessment workshops being offered this term in some regions. Please contact your regional mathematics consultant for more information. See attachment for consultants' details.

#### **Mathematics websites**

- Have you seen the link for maths websites on Curriculum Support? Try this URL <http://www.curriculumsupport.nsw.edu.au/maths/index.cfm?u=3&i=1>  
Now click on *Mathematics websites*.
- A particularly useful application is David Ecks' *xfunctions* for calculus. Go to <http://math.hws.edu/xFunctions/>

Til next month!

*Carolyn McGinty*
